

## Federal Trade Commission

## § 6.150

(d) The Commission shall administer programs and activities in the most integrated setting appropriate to the needs of qualified individuals with handicaps.

### §§ 6.131–6.139 [Reserved]

#### § 6.140 Employment.

No qualified individual with handicaps shall, on the basis of handicap, be subjected to discrimination in employment under any program or activity conducted by the Commission. The definitions, requirements and procedures of section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791), as established by the Equal Employment Opportunity Commission in 29 CFR part 1613, shall apply to employment in federally conducted programs or activities.

### §§ 6.141–6.148 [Reserved]

#### § 6.149 Program accessibility: Discrimination prohibited.

Except as otherwise provided in § 6.150, no qualified individuals with handicaps shall, because the Commission's facilities are inaccessible to or unusable by individuals with handicaps, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity conducted by the Commission.

#### § 6.150 Program accessibility: Existing facilities.

(a) *General.* The Commission shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by individuals with handicaps. This paragraph does not—

(1) Necessarily require the Commission to make each of its existing facilities accessible to and usable by individuals with handicaps, or

(2) Require the Commission to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where Commission personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue fi-

nancial and administrative burdens, the Commission has the burden of proving that compliance with § 6.150(a) would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the Chairman or his or her designee after considering all Commission resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action would result in such an alteration or such burdens, the Commission shall take any other action that would not result in such an alteration or such burdens, but would, nevertheless, ensure that individuals with handicaps receive the benefits and services of the program or activity.

(b) *Methods.* The Commission may comply with the requirements of this section through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities, use of accessible rolling stock, or any methods that result in making its programs or activities readily accessible to and usable by individuals with handicaps. The Commission is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with this section. The Commission, in making alterations to existing buildings, shall meet accessibility requirements to the extent compelled by the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157) and any regulations implementing it. In choosing among available methods for meeting the requirements of this section, the Commission shall give priority to those methods that offer programs and activities to qualified individuals with handicaps in the most integrated setting appropriate.

(c) *Time period for compliance.* The Commission shall comply with the obligations established under this section by April 1, 1988, except that where structural changes in facilities are undertaken, such changes shall be made

## §6.151

## 16 CFR Ch. I (1–1–14 Edition)

by February 1, 1991, but in any event as expeditiously as possible.

(d) *Transition plan.* In the event that structural changes to facilities will be undertaken to achieve program accessibility, the Commission shall develop, by August 1, 1988, a transition plan setting forth the steps necessary to complete such changes. The Commission shall provide an opportunity to interested persons, including individuals with handicaps or organizations representing individuals with handicaps, to participate in the development of the transition plan by submitting comments (both oral and written). A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum—

(1) Identify physical obstacles in the Commission's facilities that limit the accessibility of its programs or activities to individuals with handicaps;

(2) Describe in detail the methods that will be used to make the facilities accessible;

(3) Specify the schedule for taking the steps necessary to achieve compliance with this section and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period;

(4) Indicate the official responsible for implementation of the plan; and

(5) Identify the persons or groups with whose assistance the plan was prepared.

### **§6.151 Program accessibility: New construction and alterations.**

Each building or part of a building that is constructed or altered by, on behalf of, or for the use of the Commission shall be designed, constructed, or altered so as to be readily accessible to and usable by individuals with handicaps. The definitions, requirements, and standards of the Architectural Barriers Act (42 U.S.C. 4151–4157), as established in 41 CFR 101–19.600 to 101–19.607, apply to buildings covered by this section.

### **§6.152 Program accessibility: Electronic and information technology.**

(a) When developing, procuring, maintaining, or using electronic and information technology, the Commis-

sion shall ensure, unless an undue burden would be imposed on the agency, that the electronic and information technology allows, regardless of the type of medium of the technology:

(1) Individuals with disabilities who are employees to have access to and use of information and data that is comparable to the access to and use of the information and data by employees who are not individuals with disabilities; and

(2) Individuals with disabilities who are members of the public seeking information or services from the Commission to have access to and use of information and data that is comparable to the access to and use of the information and data by members of the public who are not individuals with disabilities.

(b) When the development, procurement, maintenance, or use of electronic and information technology that meets the standards published by the Architectural and Transportation Barriers Compliance Board pursuant to section 508(a)(2) of the Rehabilitation Act of 1973, as amended, would impose an undue burden on the Commission, the Commission shall provide individuals with disabilities covered by paragraph (a) of this section with the information and data involved by an alternative means of access that allows such individuals to use the information and data.

(c) This section shall not apply to any matter legally exempted by section 508, by the standards referenced in paragraph (b) of this section, or by other applicable law or regulation. Nothing in this section shall be construed to limit any right, remedy, or procedure otherwise available under any provision of federal law (including sections 501 through 505 of the Rehabilitation Act of 1973, as amended) that provides greater or equal protection for the rights of individuals with disabilities than section 508.

[66 FR 51863, Oct. 11, 2001]

### **§§6.153–6.159 [Reserved]**

### **§6.160 Communications.**

(a) The Commission shall take appropriate steps to ensure effective communication with applicants, participants,
